WASHINGTON, DC – The Alliance for Nonprofit Management is recognizing over a dozen individuals and organizations for their leadership and commitment to improving nonprofit effectiveness and community well-being across the field.

“Given the challenge that the nonprofit sector is currently facing, this year’s pool of exceptional candidates reflects the growing and vibrant field of experts in nonprofit management that are available and ready to help us weather this storm,” said Summer Spencer, Alliance Acting Executive Director. “With leaders such as these award recipients, the nonprofit sector will emerge stronger and better positioned to provide improved services to our communities.”

A multitude of candidates were nominated for each of these prestigious awards, which honor excellence in capacity building “best practices” each year. These awards confer special recognition upon those that have distinguished themselves in the capacity-building profession. **The awardees will be recognized at the Alliance Annual Conference, July 15th – 17th at the LaQuinta Club and Resort in Palm Springs, California.**
